

A Message from the Director of IMG Baseball Academy,

All the successful people I've ever known consistently evaluate and re-evaluate their lives and their careers. In a process of constantly assessing and re-assessing their short and long-term goals, they ultimately realize who they are and where they want to go.

By any criteria, the Baseball Academy is a most unique environment. Its goal is to provide professional instruction to amateur as well as professional players in a totally comprehensive/developmental program. Its objective is to produce world-class athletes. Its purpose is to provide a truly comprehensive program for every student/athlete, regardless of their level. It settles for nothing less than the total fulfillment of their potential as a baseball player and person.

Each student/athlete arrives here with particular strengths and goals. Our staff's aim is to compliment and develop each player according to those assets, best enabling him to prepare for a successful future.

The Baseball Academy is all about professional training for amateur athletes. Its components include rigorous training in the technical, physical and mental aspects of the game.

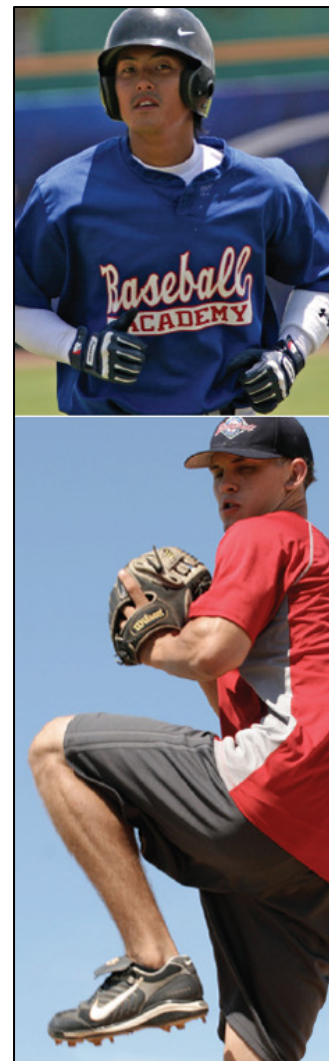

We invite you to visit us in Bradenton and see for yourself what we have to offer. We have nothing but your best interests at heart and we guarantee that your experience here will last a lifetime.

We look forward to meeting you,

Warm Regards,

Ken Bolek
